AUDIENCE FAVORITE AWARDS

Our mission is to recognize and celebrate motion pictures constructed around steampunk themes and achieving aesthetic heights of neo-Victorian retrofuturism.

This year, short film awards in all categories will be selected by YOU.

Please carefully tear out this page, tear apart the four ballots, and write in the title of your nominee in each category.

Ballot boxes are located at the front of the auditorium and in the foyer.

BEST OF SHOW

My choice for the outstanding short film at the 2011 Rose City Steampunk Film Festival is:

STEAMPUNK THEMATIC EXCELLENCE

My choice for the short film that best communicates the themes and tropes of steampunk storytelling is:

NEOVICTORIAN RETROFUTURIST AESTHETICS

My choice for the short film that best depicts an fantasy world of anachronistic technological wonder is:

PENNY FARTHER AWARD

My choice for the film that notably excelled despite (or because of) its modest means of production is:

Kyle Stephens: “Having just received my degree in Animation at the Savannah College of Art and Design, I am very excited to finally be out in the professional world of animation. While I dabble in all forms of animation, my true passion has been for 2D and stop motion. My senior film is a stop motion musical based around the character “McDonough”. I personally love to explore music and songwriting as a venue for animation and storytelling.

“I am a recent Cum Laude graduate of the Savannah College of Art and Design with a degree in Animation. My animated senior film was produced over the course of two quarters and consisted of a team of over twenty-five people from all different departments of SCAD. It appeared in several festivals all over the world, winning awards for Best Animation and Best Original Music.”

DIRECTOR'S STATEMENT

THANK YOU ALL for gathering at the first annual occurrence of something new . . . -ish.

Because of course “steampunk” imagery in cinema isn’t a new idea. The motion picture itself was a Victorian technological marvel, and one of the most iconic images from those nascent days of filmed entertainment is adapted from Verne & Wells. Steampunk as an “antique mad science” aesthetic has been around since the golden age of Hollywood, from Frankenstein’s laboratory through the Victorian fantasy settings of Mary Poppins and Chitty Chitty Bang Bang.

Steampunk proper is not quite new, either, with its first bona fide manifestation in the pages of Jeter, Moorcock, et al in the 1970s. If steampunk seems to have exploded into the public consciousness in the last few years it is because of critical mass, not sudden appearance.

So what is new about a steampunk film festival, if not steampunk or films? Perhaps our day-long film festival format, since most steampunk events are geared toward participation rather than the relatively passive act of watching a program of movies. (I thought you’d all enjoy a chance to just sit back & be entertained, for once.) What I hope this event establishes, however, and what would be a truly new thing, is a period of massively collaborative creativity among Portland’s steampunk enthusiasts.

Fact: Portland is a rich melting pot of creative talent, and many of you in this audience are accomplished filmmakers, artists, costumers, hackers, makers, performers, musicians, writers, and on, and on.

Fact: there is not a single local submission in this year’s program.

You have my high hopes, the goodwill & support of everyone in this room, and a year.

Jay Lake has been described as one of the rising stars of the science fiction and fantasy genre. Since first appearing on the scene in late 2001, he has seen over 240 short stories published, along with seven novels out, and three more forthcoming over the next few years. His work has received starred reviews in Publishers Weekly and Booklist, and significant recognition within the science fiction and fantasy field. He has won two of the most prestigious awards in science fiction and been nominated for numerous others.

Today Jay Lake lives in Portland, Oregon, where he works on multiple writing and editing projects. His 2007 book Mainspring received a starred review in Booklist. His 2009 novels are Green from Tor Books, Madness of Flowers from Night Shade Books, and Death of a Starship from MonkeyBrain Books. His short fiction appears regularly in literary and genre markets worldwide. Jay is a winner of the John W. Campbell Award for Best New Writer, and a multiple nominee for the Hugo and World Fantasy Awards. Jay can be reached through his Web site at www.jlake.com. (Photo © Roger Podva 2009)

Andrew Mayer has spent sixteen years involved with every facet of game design and production, bringing his unique insight and skills to companies such as Sony, Time/Warner, PlayFirst, Zynga, The Learning Company, 2K Boston, and more. He has been a creative force behind numerous best-selling titles and a trailblazer in social gaming, turning his unique insights in player participation and interaction into highly successful projects spanning a variety of genres and media, including online, television, and retail.

As a writer Andrew has completed numerous short stories and a Steampunk Superhero novel. He also co-wrote the script for THE LEGEND OF ZORRO, which was released for the Wii. In 2008 his short comic OM NOM NOM was published by Dark Horse as the first new story for Creepy Magazine in almost 20 years. Expect to see more published work in the near future.

Cassie “Casstronaut” Meder is a creative, charismatic, chameleon of a model of the professional type based in Portland, OR. Specializing in print, editorial, fashion, catalogue, lifestyle, and alternative modeling. Currently a crusader and explorer of other arts such as film, acting, and illustration.

Devon Monk writes the Allie Beckstrom urban fantasy series, the Age of Steam steampunk series, and the occasional short story. She has one husband, two sons, and a dog named Mojo. She lives in Oregon and is surrounded by colorful and numerous family members who mostly live within dinner-calling distance of each other. She has sold over fifty short stories to magazines and anthologies in five different countries, including a Year’s Best Fantasy collection. When not writing, Devon is either knitting strange things, remodeling the house-that-was-once-a-barn, or hosting a family celebration.

GUEST BIOS

Meljean Brook was raised in the middle of the woods, and hid under her blankets at night with fairy tales, comic books, and romances. She left the forest and went on a misguided tour through the world of accounting before focusing on her first loves, reading and writing—and she realized that monsters, superheroes, and happily-ever-afters are easily found between the covers, as well as under them, so she set out to make her own.

Meljean lives in Portland, Oregon with her husband and daughter.

Michell Durrin is a promoter, model, and well-known fixture of Portland's event and convention circuit, an officer of the Portland Steampunk Society, and a stage manager & event producer with Iniquitous Productions and other local entertainment collectives. Some have speculated that Michell is in fact the mysterious and deadly Oberleutnant Petra Genoveva, "the Silesian Kitten", recon photographer and gunnery officer aboard the zeppelin Der Fliegende Igel -- but such loose talk is dangerous and could cost lives.

Beth H. Gordon: "Moving to Los Angeles to attend film school was the last thing on my mind while growing up on the east coast of Long Island. A serious student in the sciences, I received my Bachelor's degree in Computer Science from Barnard College at Columbia University in 2002. After I completed my first computer animated short, *The Wink*, in 2002. I ended my two and a half year career as a computer consultant to pursue my Master of Fine Art degree at the University of Southern California in January of 2005. I have never imagined being so in love and dedicated to such an exciting and new

career.

"Since moving to L.A., I have completed several short films ranging from peanut butter and jelly sandwiches taking over a man's world and the tales of director Calvin Franken-Paul-Stein to the story of what it may take to make a decision, and have co-edited a short documentary focusing on impeding global disasters, *Ready or Not*."

M.K. Hobson was born in Riverside, California, but grew up in Portland, Oregon. She attended the University of Oregon, where she ran Catalyst Films (the campus film society), helped launch *The Student Insurgent* (a radical progressive 'zine that's still being published) and drove night-shift cab in nearby Springfield, Oregon. After graduating with a degree in English and Communications, she moved to Hiroshima, Japan to teach English. Returning to the United States two years later, she purchased *The Northwest Neighbor*, a community newspaper founded by legendary Portland mayor Bud Clark. She ran the paper for several years before moving on to a career in the field of corporate communications, working with Fortune 500 clients in the fields of retirement and healthcare.

Currently, she is one of the co-hosts of *Podcastle*, the acclaimed short fiction podcast. She lives in Oregon City, Oregon with her husband and daughter. (photo © Kelly Robson 2009)
